Anaerobic sealing material

PRODUCT SPECIFICATION

Loctite 570 steam sealant
Thread sealing for permanent metal pipe thread connections
Pressure class 8

APPLICATION AND USE

Sealing material for metallic threaded joints for use in gas installations for 2nd and 3rd family gases according to NEN-EN 437 and in hot water heating systems for gas- and water pressure up to and including 8 bar.

MARKING

- GASTEC QA, GASTEC QA logo or trademark.
 - Manufacturer's name and or registered trade mark
 - Pressure class: Klasse 8
 - A note: "Alleen voor metalen pijpschroefdraadverbindingen" :
 - Type for use with coarse treads:
 - Quantity of jointing compound in the package:
 - Unique identification mark providing traceability and production date or 'use by' date:
 - Essential instructions for use storage and possible limitations
 - Appropriate handling and safety labeling
-

RECOMMENDATIONS FOR END USERS

Check at the time of delivery whether:

- the producer has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport.

Consult the producer's processing guidelines for the proper storage and transport methods.

Check whether this certificate is still valid by consulting Kiwa Nederland B.V. or the Kiwa website.

If you should reject a product on the basis of the above, please contact the supplier and, if necessary, Kiwa Nederland B.V.
